📘 [Van.Anh.130203](#)

Skills

Programming Languages

JavaScript, TypeScript, C#,
HTML/CSS

Frameworks and Libraries

Node.js, Express.js, Sequelize,
Redis, Passport, JWT, React.js,
Redux

Database

SQL Server, MySQL, SQLite

Tools

Git & GitHub, RESTful APIs,
Postman

Cloud & Deployment

AWS (EC2, DRS, etc.)

Objective

I am an enthusiastic software engineering student seeking an intern position in Node.js development to leverage my skills in JavaScript, problem-solving, and software engineering. Eager to contribute to real-world projects and gain hands-on experience in a dynamic environment.

Education

Ho Chi Minh City University of Industry and

Trade

3.4/4 GPA

August 2021 - Present

Major in software technology

Projects

E-commerce Clothing Store

January 2024 - Present

Developed a comprehensive e-commerce web application for a fashion store, allowing users to browse products, add items to the cart, and complete purchases online.

Key Technologies:

- **Frontend:** React.js, Redux, React-Router, Axios, Ant Design.
- **Backend:** Node.js, Express.js, Sequelize, MySQL2, Redis, Passport, JSON Web Token (JWT), Crypto-js
- **Database:** MySQL
- **Tools:** Git, GitHub, AWS (EC2, DRS)

Key Features:

User Features

- **User Registration and Login:** Secure user registration and login system with JWT-based authentication.
- **Purchase Process:** Streamlined checkout process, including payment integration and order confirmation.
- **Voucher System:** Apply discount vouchers during checkout to receive discounts on purchases.
- **Order Review and Tracking:** View order history and track the status of current orders in real time.

Admin Features

- **Product Review Management:** Monitor and manage product reviews, including the ability to approve, reject, or respond to reviews.
- **Product and Category Management:** Add, update, and remove products and categories.
- **Banner Management:** Manage promotional banners displayed on the website and add new banners.
- **Voucher Management:** Create, update, and delete discount vouchers, with control over voucher validity and usage conditions.
- **User Account Management:** View and manage user accounts, including profile updates and account status changes.
- **Role Assignment:** Assign roles and permissions to users, ensuring appropriate access control within the admin panel.
